INDEPENDENT AUDITOR'S REPORT

Honorable Superintendent and
Board of Trustees
Natrona County School District No. 1
Casper, Wyoming

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Natrona County School District No. 1, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Natrona County School District No. 1's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Natrona County School District No. 1, as of June 30, 2016, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension schedules as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

We have applied certain limited procedures to the management discussion and analysis and pension schedules in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

The budgetary comparison information as listed in the table of contents is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Natrona County School District No. 1's basic financial statements. The budgetary comparison information and schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The budgetary comparison information and schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the budgetary comparison information and schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 10, 2016 on our consideration of Natrona County School District No. 1's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Natrona County School District No. 1's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2016

(Unaudited)

As management of Natrona County School District No. 1, we offer readers of the District's financial statements this narrative overview and analysis of the financial activities of the District for the years ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the District's financial statements, notes to the financial statements and various supplementary information, which follow this section.

Financial Highlights

The District's total combined net position was \$370,635,111 at June 30, 2016, which compares to \$298,266,117 at the beginning of the fiscal year, an increase of \$72,368,994 (24%).

- During the year, the District's expenses for governmental activities were \$219,311,324.
- The District's total revenue generated in taxes, other revenues and transfers for governmental activities was \$188,286,574.
- The District's governmental funds total expenses were \$287,967,562.
- The District's total governmental funds revenue was \$290,683,117 of which \$54,308,404 was generated in taxes.
- The District participates in the Public Employees' Pension Plan ("PEPP"), a statewide cost-sharing multiple-employer public employee retirement system administered by the State of Wyoming Retirement System Board. Governmental accounting standards require the District to record its proportional share of the overall plan's net position. This resulted in recording a net pension liability of \$145,999,174 for June 30, 2016. All plan components, including the major components of participation, eligibility, investment strategy, benefit structure, contribution rates and plan administration are controlled by the State of Wyoming. Readers should be aware the District is required to record the net position but has no control of the plan elements that affect the net position

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. However, fluctuations from year to year need to be reviewed in light of the timing of funding.

The statement of activities presents information for all of the current year's revenues and expenses regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

Both of the District's government-wide financial statements distinguish the functions of the District as being principally supported by taxes and intergovernmental revenues (governmental activities) as opposed to business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. The District has only one business-type activity, the Enterprise Fund - Cafeteria Fund.

The District participates in oversight of the Natrona County Recreation Joint Powers Board (Recreation Board) and recognizes the Recreation Board as a component unit. The Recreation Board provides funding to the

MANAGEMENT'S DISCUSSION AND ANALYSIS

(Unaudited)

District for recreational education activities for students. They also provide funding through grants to other agencies offering recreational education for Natrona County children and youth.

The District also participates in the oversight of the Casper Area Education Foundation (Foundation) and recognizes the Foundation as a component unit. The Foundation is a private not-for-profit organization primarily fund-raising to provide scholarships and financial support for educational programs. As the Foundation is tax-exempt organization it provides a vehicle for charitable donations.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related requirements. The fund financial statements provide more detailed information about the District's most significant funds - not the District as a whole.

All of the funds of the District can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on how money flows into and out of those funds and the balances left at year-end available for spending in the future periods. Such information may be useful in evaluating a government's near-term financing requirements. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance educational programs. The relationship (or differences) between governmental activities reported in the Statement of Net Position and the Statement of Activities and the governmental funds are reconciled in the financial statements.

Proprietary funds. Proprietary funds are used to account for services for which the District charges participants a fee. These funds, like the government-wide statements, provide both long- and short-term financial information. The Enterprise Fund - Cafeteria Fund is the only fund in this category for the District.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the District's own programs. The District is the trustee, or fiduciary, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the District's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. The District has two funds in this category, the Student Activities Fund and the Construction Retainage Fund.

Notes to the financial statements. The notes provide additional information that is essential to a complete understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements.

The net investment in capital assets is \$435,813,700, which is the net book value of capital assets (e.g., land, buildings, and equipment) less related debt. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources

The District's total net position increased \$72,368,994 during the year ended June 30, 2016. The total cost of all governmental activities this year was \$219,311,324 and of the business-type activity was \$6,223,865.

Financial Highlights of the District's Funds

Governmental Funds

General Fund

The General Fund receives a majority of its revenue through the State of Wyoming School Foundation Block Grant. The Block Grant is comprised of tax collections and a foundation entitlement. Taxes for the year were \$54,308,404 or 28.5% of total general revenue, and the foundation entitlement was \$135,638,376 or 71% of total General Fund revenue. The District expended \$111,888,825 on student instruction through the General Fund. This represents 62% of this fund's total expenditures. The balance of expenditures is in support of class room instruction.

Program Fund

The Program Fund experienced a 2% decrease in program grant revenues. Federal grants accounted for the majority of this decrease.

Capital Maintenance Fund

The funding for this activity remains stable and is provided by the State of Wyoming to do major maintenance on existing District facilities.

Capital Projects

During the year, the District continued design and construction on two new elementary schools, and three high schools. The funding for these projects is provided by State Capital Construction grants from the State of Wyoming.

Proprietary Funds

Cafeteria Fund

The District experienced an anticipated loss in the operation of this program. The District will continue to use a combination of meal price increases, cost containment, and fund transfers to return this activity to self-sufficiency.

Budgetary Highlights

Routine budget transfers occurred during the fiscal year ended June 30, 2016. These transfers did not increase or decrease the overall budget.

Long-term debt

The following is a summary of the governmental funds debt transactions, excluding net pension liability, of the District for the year ended June 30, 2016:

Debt outstanding at July 1, 2015	\$ 7,817,826
New debt issued	4,351,816
Debt retired	1,222,093
Debt outstanding at June 30, 2016	<u>\$ 10,947,549</u>

Factors Affecting the District's Future

The District receives approximately 81% of its revenues from state and federal sources. This means a significant portion of the District's resources come from sources outside of the control of the Board of Trustees. Obtaining sufficient resources to educate the students of Natrona County will largely be dependent on the state and federal agencies currently providing funding.

Requests for Information

This financial report is designed to provide our citizens, taxpayers, customers and creditors with a general overview of the District's finances as well as demonstrate accountability for funds the District receives. Questions concerning any of the information provided in this report or requests for additional information should be addressed to the Superintendent, Steve Hopkins, 970 North Glenn Road, Casper, WY 82601.

**RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
Year Ended June 30, 2016**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds \$ 4,126,315

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded the depreciation expense and loss on disposal of buildings in the current period.

Capital outlay	75,222,045	
Reclassification of prior year construction in progress to fixed assets	13,116,210	
Loss on disposal of vehicles	(16,306)	
Depreciation expense	<u>(7,671,002)</u>	80,650,947

Pension expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

Pension liability - prior year	107,445,548	
Pension liability - current year	(143,682,602)	
Pension plan items - prior year	(18,782,927)	
Pension plan items - current year	<u>43,508,961</u>	(11,511,020)

Issuance of capital leases provides current financial resources to governmental funds. (2,629,730)

Repayment of principal on long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 915,385

Long-term liabilities for compensated absences and retainages are not due and payable in the current period and therefore are not reported in the funds.

Retainage payable - current year	(4,639,802)	
Retainage payable - prior year	3,275,311	
Compensated absences - current year	(3,148,242)	
Compensated absences - prior year	<u>3,097,355</u>	(1,415,378)

Revenues in the statement of activities that do not provide current financial revenues are not reported as revenues in the funds.

Deferred revenue - current year	1,270,914	
Property tax revenue - prior year	(364,560)	
Reimbursements from School Facilities Department - current year	4,639,802	
Reimbursements from School Facilities Department - prior year	<u>(3,275,311)</u>	2,270,845

Note 1. Summary of Significant Accounting Policies

Reporting Entity

Natrona County School District No. 1 serves constituents of the City of Casper as well as a number of other communities within Natrona County, Wyoming. The District provides public education for students from kindergarten through grade twelve in four senior high schools, eight junior/middle schools, twenty-two elementary schools and four rural schools.

The District's Board of Trustees has responsibility over all activities related to public elementary and secondary school education within Natrona County. The District receives funding from federal, state and local government sources and must comply with requirements from these funding sources. Generally accepted accounting principles require that the reporting entity include the primary government, organizations for which the primary government is financially accountable and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's basic financial statements to be misleading or incomplete. The accompanying financial statements present the District and its component units, entities for which the District is considered financially accountable. The discretely presented component units are reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that they are legally separate from the District.

Discretely Presented Component Units

The District has participated in the creation of the Natrona County Recreation Joint Powers Board (Recreation Board) as authorized by Wyoming Statutes. Three out of five members of the governing body of the Recreation Board are members of the District's Board of Trustees. The Recreation Board does not have a quorum without the three members of the District's Board of Trustees. The Recreation Board is a separate legal entity and is accountable for its own activities. The Natrona County Recreation Joint Powers Board does not issue separate financial statements.

The Casper Area Education Foundation (Foundation) is a discretely presented component unit of the District. The Foundation is a legally separate, tax exempt organization. The Foundation acts primarily as a fund-raising organization to provide scholarship awards to high school seniors and provides support of educational programs in the District. The Foundation does not issue separate financial statements. The Foundation operates on a calendar year, and the results of its operations have not been restated to conform to the District's year end. Due to the differing year ends, certain transactions that occurred between the two entities created timing differences between revenues, expenses, assets, and liabilities.

The Foundation is a private not-for-profit organization that reports its financial results under the Financial Reporting for Not-for-Profit Organizations and Accounting for Contributions Received and Contributions Made Topics of the FASB Accounting Standards Codification (ASC) (Topics). As such, certain presentation features are different from GASB presentation features. No modifications have been made to the Foundation's financial information in the District's financial reporting entity for these differences.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from its legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund, fiduciary fund, and discretely presented component units financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, and interest associated with the current fiscal period are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The *general fund* is the District's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund.

The *program fund* is a special revenue fund that accounts for the proceeds of specific federal, state, and local grant sources that are legally restricted to expenditure for specified purposes.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

The *capital maintenance fund* is a special revenue fund that accounts for the proceeds from capital maintenance property taxes levied on the District's behalf and the State's matching funds. Capital maintenance expenditures provided for these sources are recorded in this fund.

The *capital projects fund* accounts for the proceeds of specific revenue sources that are restricted to expenditures for the construction and renovation of several school and district facilities. The fund also accounts for the associated acquisition of land for new building construction. The *capital projects fund* also accounts for the accumulation of resources for, and the payment of, expenditures associated with technological improvements throughout the District.

The District reports the following major proprietary fund:

The *cafeteria fund* accounts for the activities of the District's cafeterias, which prepare and serve breakfast and lunch to District students. Major sources of revenue include charges for services and operating grants from the Federal government.

Additionally, the District reports the following funds:

The *student activities fund* is an agency fund used to account for the District's many student activities. The District's responsibility for these activities is fiduciary in nature.

The *construction retainage fund* is an agency fund used to account for the District's construction retainage amounts that have been deposited in a joint account with the contractor.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the District's enterprise fund are charges to students and faculty for food services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity

Cash and Cash Equivalents

For the purpose of the statement of cash flows, the District considers all cash on hand and demand deposits to be cash equivalents.

Accounts Receivable

The District considers all accounts receivable to be fully collectible at June 30, 2016, except for the receivable for unpaid meal recorded in the cafeteria fund. The District recorded \$109,344 as an allowance for doubtful accounts, which represents 49.95% of the total receivable.

Property Taxes

Property taxes attach as an enforceable lien on property as of January 1 of each year. Property taxes are levied on or about August 1 and are due in two installments. The first installment becomes due on September 1 and delinquent on November 10; the second becomes due on March 1 and delinquent on May 10. The County bills and collects its own property taxes as well as taxes for all municipalities and political subdivisions within the County, including Natrona County School District No. 1. District property tax revenues are recognized when levied to the extent that they result in current receivables, which means when collected within the current period or expected to be collected within 60 days of the fiscal year end to be used to pay liabilities of the current period. Property taxes which are not current receivables are offset by deferred revenues on the fund financials, but are reported on the government-wide financial statements as revenue and receivables, with no amount being deferred when levied. Property taxes receivable are recognized as of the lien date; however, revenue is not recognized until the levy date.

The District is permitted by Wyoming Statutes to levy taxes up to twenty-five mills of assessed valuation for all school purposes, exclusive of bond interest and redemption. An additional six mills must also be levied on the assessed valuation of the county. The District may also levy up to one mill for the Recreation Board. The combined tax rate related to financing general school services other than the payment of principal and interest on long-term debt for the year ended June 30, 2016 was thirty-two mills all of which was levied.

Inventories and Prepaid Items

Inventory is valued at average cost. Inventory in the General Fund consists of expendable supplies held for consumption. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased. Reported inventories are equally offset by a fund balance reserve, which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

Proprietary fund inventories are accounted for using the consumption method by which inventory acquisitions are recorded in inventory accounts when purchased or received by other means and are charged to expense when consumed or sold. Inventory in the Cafeteria Fund consists of food product including USDA food commodities held for consumption.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Note 1. Summary of Significant Accounting Policies (Continued)

Assets, Liabilities, Deferred Inflows and Outflows of Resources, and Net Position or Equity (Continued)

Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$100,000 for buildings and building improvements, \$50,000 for land and land improvements, \$5,000 for machinery and equipment and vehicles, and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight line method over the following estimated useful lives.

Land and improvements	20 years
Buildings and improvements	25 – 50 years
Machinery and equipment	5 – 20 years
Vehicles	5 – 12 years

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Wyoming Retirement System (“WRS”) plans and additions to/deductions from WRS’s fiduciary net position have been determined on the same basis as they are reported by WRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Deferred Outflows of Resources and Deferred Inflows of Resources

In addition to assets and liabilities, the financial statements sometimes report a separate section for deferred outflows and inflows of resources. A deferred inflow of resources represents an acquisition of net position by the District that is applicable to a future reporting period and a deferred outflow of resources is a consumption of net position by the District that is applicable to a future reporting period. Both deferred inflows and outflows are reported in the statement of net position or fund balance sheet, but are not recognized in the financial statements as revenues, expenses, and reduction of liabilities or increase in assets until the period(s) to which they related. The District reports the following deferred inflows and outflows of resources:

Unavailable revenues – unavailable revenue is reported in the governmental funds balance sheet. The governmental funds report unavailable revenues from two sources: property taxes and grants. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. In the government-wide statement of net position, only the property tax revenue is reported as a deferred inflow of resources in the year they are assessed.

Deferred Outflows of Resources and Deferred Inflows of Resources (Continued)

Pension plan items – in the government-wide and proprietary fund statement of net position, deferred outflows and inflows of resources are reported for the unrecognized items related to the District's share of the difference between projected and actual earnings, for the District's share of the difference between contributions to the individual plans and the proportionate share of the contributions, and for the changes of assumptions or other inputs.

Compensated Absences

The District's permanent classified and certified staff, including administrators, earn nine to twelve days sick leave a year with unlimited accumulation. When a classified or certified employee, or administrator leaves the District, all days accumulated above 50 are paid at \$40, \$55 or \$60 a day, respectively.

All administrators are entitled to vacation leave at the beginning of their contract year. Administrators are not paid for unused vacation leave when they resign or retire. Also, Administrators cannot carry-over unused vacation from one contract year to the next. Classified staff earns vacation leave on a graduated scale depending on the length of service. At a minimum, one-half of the earned days must be taken within the year earned. The remainder is vested and can be accumulated up to a maximum of 30 days.

All accumulated vacation and vested sick leave pay, along with applicable employee benefits, are accrued when incurred in the government-wide and proprietary statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Fund Balances

Governmental fund equity is classified as fund balance. Fund balance is further classified as nonspendable, restricted, committed, assigned, or unassigned. Nonspendable fund balance cannot be spent because of its form. Restricted fund balance has limitations imposed by creditors, grantors, or contributors or by enabling legislation or constitutional provisions. The major maintenance fund balance is restricted by Wyoming State Statute 21-15-109. Committed fund balance is a limitation imposed by the District's Board of Trustees, the highest level of authority, through approval in the minutes. The District does not have a written policy to assign amounts to a specific purpose; however the Board considers the Board's budget reserve and the District encumbrances as assigned amounts. Unassigned fund balance in the General Fund is the net resources in excess of what can be properly classified in one of the above four categories. Negative unassigned fund balance in other governmental funds represents excess expenditures incurred over the amounts restricted, committed, or assigned to those purposes. Proprietary fund equity is classified the same as in the government-wide statements.

The deficit net position in the cafeteria fund is the result of recognizing the net pension liability as required by governmental accounting standards.

When both restricted and unrestricted fund balances are available for use, it is the District's policy to use restricted fund balance first, then unrestricted fund balance. Furthermore, committed fund balances are reduced first, followed by assigned amounts, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of those unrestricted fund balance classifications can be used.

At June 30, 2016 the District's general fund assigned fund balance consisted of the Board's budget reserve and District encumbrances in the amounts of \$8,825,000 and \$751,961, respectively.

The District's general fund committed balances comprise of the Board's budget priorities which consisted of the following as of June 30, 2016:

New Elementary School Enhancements	\$ 88,500
Cell Tower Addition	39,000
Lincoln Elementary School Preschool	700,000
NCHS MAC Final Buildout & Equipment	960,000
Pool Priority Fund	2,000,000
Board Goals and Contingencies	4,775,098
Total committed	<u>\$ 8,562,598</u>

NOTES TO THE FINANCIAL STATEMENTS

Note 2. Stewardship, Compliance, and Accountability

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

Prior to May 15, the Superintendent submits to the Board of Trustees a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them. A public hearing is conducted on the third Wednesday in July to obtain public comments. The budget is adopted by the third Thursday of July.

At the request of the Superintendent or upon its own motion after publication of notice, the Board of Trustees may by resolution transfer any unencumbered or unexpended appropriation balance or part thereof from one fund, department or account to another. All appropriations, excluding appropriations for capital projects, lapse at the close of the budget year to the extent they are not expended or encumbered. The level of expenditure control for budget purposes is the department level.

Formal budgetary integration is employed as a management control device during the year for the General Fund and Special Revenue Funds.

Budgets for the general, special revenue and capital project fund are adopted on a cash basis (NON-GAAP). Such basis is not consistent with generally accepted accounting principles (GAAP).

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed as an extension of formal budgetary integration during the year.

Note 3. Deposits and Investments

Custodial credit risk – deposits

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District, Recreation Board and Foundation lack a deposit policy for custodial credit risk; however, Wyoming State statute §9-4-820 requires all political subdivisions to collateralize bank deposits in excess of amounts insured by the Federal Deposit Insurance Corporation (FDIC). As of June 30, 2016, the District's bank balances in excess of FDIC were collateralized with securities held by the pledging financial institution's trust department or agent, in joint custody of the bank and the District.

Note 3. Deposits and Investments (Continued)

Investments Held by the Foundation

The Foundation accounts for its investments at their fair values. Unrealized gains and losses are included in the change in net position. The Foundation categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The Foundation's investments are classified and disclosed based on quoted prices available in active markets (Level 1 inputs).

As of June 30, 2016, the Foundation had the following investments:

Investment Types	Fair Value	Interest Rate	Investment Maturities		S&P Rating
			1 year or less	1 to 5 years	
Mutual funds	\$ 351,958	n/a	\$ 351,958	\$ -	n/a

	<u>\$ 372,841</u>		<u>\$ 351,958</u>	<u>\$ 20,883</u>	

Mutual funds and corporate bonds may be held by the Foundation. The Foundation is not subject to the state statutes which restrict investments to governmental securities. The mutual funds noted above are not rated by Moody's or Standard and Poor's.

Note 4. Transfers

The composition of transfer balances as of June 30, 2016, is as follows:

	Transfers in	Transfers out
General Fund	\$ -	\$ 14,626,070
Capital Projects Fund	13,407,100	-
Cafeteria Fund	1,218,970	-
	<u>\$ 14,626,070</u>	<u>\$ 14,626,070</u>

Interfund transfers reflect the general fund's support of other specific District activities accounted for in the Capital Projects Fund and Cafeteria Fund approved by the Board of Trustees.

Note 7. Pension Plan

The District participates in the Public Employees' Pension Plan ("PEPP"), a statewide cost-sharing multiple-employer public employee retirement system administered by the State of Wyoming Retirement System Board. Substantially all District full-time employees are eligible to participate. The PEPP provides retirement, disability and death benefits according to predetermined formulas. Benefits are established by Title 9, Chapter 3 of the Wyoming Statutes. All plan components, including the major components of participation, eligibility, investment strategy, benefit structure, contribution rates and plan administration are controlled by the State of Wyoming. Readers should be aware the District is required to record the net position but has no control of the plan elements that affect the net position.

PEPP members are required to contribute 8.25% of their annual covered salary and the District is required to contribute 8.37% of the annual covered payroll. Legislation enacted in 1979 allows the employer to pay any or all of the employees' contribution in addition to the matching contribution. The District currently pays 14.565% of the required employee's contribution and the employees pay 2.055%. Contribution rates are established by Title 9, Chapter 3 of the Wyoming Statutes. The District's contributions to the PEPP for the years ended June 30, 2016, 2015 and 2014 were \$16,539,693, \$15,484,073, and \$14,459,706, while the employees' portion was \$2,355,324, \$2,295,274, and \$1,562,460, respectively, equal to the required contributions for each year.

In addition, District employees are eligible to participate voluntarily in the District's 403(b) annuity plan and the state sponsored 457 deferred compensation plans. As a part the employee benefit package, the District matches up to \$60 for all insurance eligible employees who elect to contribute to the deferred compensation plan.

Pension Plan Fiduciary Net Position

The Wyoming Retirement System issues a publicly available financial report which includes audited financial statements and required supplementary information for each plan. Detailed information about the pension plans' fiduciary net position is available in separately issued Wyoming Retirement System financial report. The report may be obtained from the Wyoming Retirement System website at <http://retirement.state.wy.us>.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2016, the District reported a total liability of \$145,999,174 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2015, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation January 1, 2016. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plans relative to the projected contributions of all participating governmental entities, actuarially determined. The schedule below shows the District's proportionate share of the net pension liability at June 30, 2016, the proportionate portion at the measurement date of December 31, 2015, and the change in the proportion from its proportion measured as of December 31, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions (Continued)

For the year ended June 30, 2016, the District recognized pension expense of \$53,901,696. At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Net difference between projected and actual earnings on pension plan investments	\$ 35,666,365	\$ 3,088,678
Change in employer's proportion	941,399	-
Amortizing deferred outflows and deferred inflows	36,607,764	3,088,678
District's contributions subsequent to the measurement date	10,661,987	-
Total	\$ 47,269,751	\$ 3,088,678

The District reported \$10,661,987 as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows or resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

	Deferred Outflows	Deferred Inflows
Year ended June 30,

Actuarial Assumptions

The total pension liability in the December 31, 2015 measurement date was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial Assumptions and Methods

Valuation Date	1/1/2016
Actuarial cost method	Individual Entry Age Normal
Amortization method	Level percent
Remaining amortization period	30 years
Asset valuation method	5-year
Actuarial assumptions:	
Investment net rate of return	7.75%
Projected salary increases (includes inflation)	4.25% to 6.00%
Assumed inflation rate	3.25%
Mortality	RP-2000 Combined Mortality Table, fully generational projected with Scale BB

The current actuarial assumptions and methods used in the January 1, 2016 valuation were based upon an experience study that covered a five-year period ending December 31, 2011. Differences between assumptions and actual experience since the prior valuation are identified as actuarial gains and losses. These gains and losses impact the unfunded actuarial liability and future funding requirements determined in subsequent valuations.

The long term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and adding expected inflation.

For each major asset class that is included in the pension plans' target allocation as of January 1, 2016, these best estimates are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Cash	2.50%	0.25%
Fixed income	15.00%	0.87%
Equity	59.00%	5.13%
Marketable alternatives	15.50%	4.75%
Private markets	8.00%	5.84%
Total	<u>100.00%</u>

Note 7. Pension Plan (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.75 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that contributions for participating governmental entities will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following table presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75 percent) or 1-percentage-point higher (8.75 percent) than the current rate.

Pension Plan	1% Decrease (6.75)%	Current Discount Rate (7.75)%	1% Increase (8.75)%
Public Employees' Pension Plan	\$ 209,603,160	\$ 145,999,174	\$ 92,227,617

Note 8. Risk Management Programs

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; error and omissions; injuries to employees; and natural disasters. As a result, the District carries a number of commercial insurance policies covering these and other risks. Policy limits include approximately \$657,595,230 on real and personal property; \$10,654,847 on computer equipment and media; \$1,145,482 on musical equipment plus \$25,000 for band uniforms; \$2,000,000 general liability aggregate; \$1,000,000 commercial auto liability; \$1,000,000 employee benefit liability aggregate; \$1,000,000 errors and omissions aggregate; \$5,000,000 excess liability; \$500,000 on employee dishonesty; and \$500,000 on forgery and altercations, as well as 500,000 pollution policy. The District also participates in two other risk management programs: Workers' Compensation Act and Unemployment Compensation Act.

Wyoming Statute §27-14-101 created the Wyoming Workers' Compensation Act, which is administered as an Enterprise Fund by the State of Wyoming. All employers within the State of Wyoming are participants of this plan unless the employer elects not to be covered under the plan. This act requires the District to obtain liability coverage for payment of benefits to employees for job-related injuries and diseases through the Workers' Compensation Fund. This act provides general protection from suits filed by employees against the District. The District makes monthly payments to the Department of Employment, State of Wyoming. This amount is based on salaries and a split rate between hazardous and non-hazardous positions. Amounts paid by the District to the State for Worker's Compensation during fiscal year 2016 were \$2,063,221.

Note 8. Risk Management Programs (Continued)

Wyoming Statute §27-3-101 created the Unemployment Compensation Act. This act requires the District to pay the cost of actual claims incurred. Changes in the balances of claim liabilities during fiscal year 2016 are as follows for the District's participation in the Unemployment Compensation Act Program:

	2016
Unpaid claims, beginning of fiscal year	\$ -
Incurred claims	24,544
Claim payments	(24,544)
Unpaid claims, end of fiscal year	<u>\$ -</u>

Note 9. Insurance Benefits

The District participates in the State of Wyoming employee medical, life and dental insurance program that is co-administered with a third-party health provider/claim service company. The State self-insures medical and dental costs and assumes all the risk for claims incurred by plan participants. The State does not retain any risk of loss for the life insurance plan as the insurance provider assumes all the risk for claims incurred by participants.

The District contributes \$755 per month for single participant, \$1,500 for a participant plus a spouse, \$1,147 for a participant plus children, \$1,716 per participating family, or \$858 for married couples both of which are employed by the District or another State agency for insurance premiums for covered participants towards these plans. Participants are responsible for paying premium charges in excess of this amount. The District contributed \$34,837,631 to this plan for the year ended June 30, 2016.

The District participates in a long-term disability program and contributes 100% of the premium per month for each eligible employee at the rate of \$0.257 per \$100 of payroll. The District does not retain any risk of loss for the long-term disability program as the insurance carrier assumes all the risk for claims incurred by participants.

Additionally, the District contributed .6% of benefited payroll to the State as a subsidy for retiree health insurance benefits. The required contribution for the year ended June 30, 2016 was \$632,730.

Note 10. Commitments and Contingencies

The District is involved in ongoing litigation and asserted claims. The District's insurance provides coverage for these claims; however, the District may be liable for its \$100,000 deductible related to any specific case. This aggregate deductible has not been accrued since the outcome of these matters are not presently determinable. In management's opinion, the resolution of each of these matters will not have a material adverse effect on the financial condition of the District. Additionally, the District has been named in a multi-party asbestos claim that is excluded under the District's insurance contract. The District's legal counsel has advised that the matter has a \$500,000 statutory cap, in aggregate. The District and its legal counsel intend to vigorously defend this matter and do not believe the outcome will have a material effect on the financial statement.

Total	<u>\$ 285,401,009</u>	<u>\$ 218,740,577</u>	<u>\$ 66,660,432</u>

In December 2004, the District purchased a parcel of land for the development of the Fort Caspar Elementary School. The total purchase of this land, including expenses such as land appraisals and archeological investigation, was \$1,666,888 and was reimbursed by the State School Facilities Department. This land was determined to be unsuitable as a building site for the Fort Caspar Elementary School. In April 2006, the District purchased a more suitable site for the Fort Caspar Elementary School for \$1,570,000. The District has entered into an agreement with the State School Facilities Department to sell the parcel of land purchased in December 2004 and refund the proceeds to School Facilities Department. During the fiscal year ended June 30, 2016, the District determined the value of the land decreased and reduced the value to \$424,350.

Note 11. Transactions with Component Units

For the fiscal year ended June 30, 2016, the District received \$1,211,225 and \$212,021 from the Recreation Board and Foundation, respectively.

Note 12. Subsequent Events

The District did not have any subsequent events through November 10, 2016 the date at which the financial statements were available to be issued for events requiring recording or disclosure in the financial statements for the year ended June 30, 2016.

Note 13. Implementation of Governmental Accounting Standards Board Statements

GASB Statement No. 82, *Pension Issues – an amendment of GASB Statement No. 67, No. 68, and No. 73*, is designed to improve consistency in the application of the pension standards by clarifying or amending related areas of existing guidance. The District early implemented this standard.

Note 2. Budgeting

Annual budgets are adopted on the cash basis for all governmental funds. Legal spending control for the District monies is at the function level. The District may amend the budget after it is appropriated using the same procedures necessary to approve the original budget at the functional level. Management monitors expenditures at budgetary line item levels within each fund to enhance the accounting control system and may amend the budget at this level as long as the functional level budget is maintained.

NATRONA COUNTY SCHOOL DISTRICT NO. 1

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

June 30, 2016

Note 1. Basis of Presentation

The accompanying schedule of expenditures of Federal awards “the “Schedule” includes the Federal grant activity of Natrona County School District No. 1 under programs of the federal government for the year ended June 30, 2016. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Natrona County School District No. 1, it is not intended to and does not present the financial position, change in net assets, or cash flows of Natrona County School District No. 1.

Note 2. Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the cash basis of accounting. Such expenditures are recognized following the cost principles contained in the Office of Management and Budget Circular A-87, *Cost Principles for State, Local and Indian Tribal Governments* or the Uniform Guidance, as applicable, wherein certain types of expenditure are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustment or credit made in the normal course of business to amounts reported as expenditures in prior years.

Note 3. Indirect Cost Rate

Natrona County School District No. 1 has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

Note 4. Commodities

Natrona County School District No. 1 purchases commodities from the United States Department of Agriculture at discounted prices. The value of commodities in the amount of \$338,459 was included in the Nutrition Cluster on the Schedule.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

To the Honorable Superintendent and Members
of the Board of Trustees
Natrona County School District No. 1
Casper, Wyoming

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of Natrona County School District No. 1, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Natrona County School District No. 1's basic financial statements, and have issued our report thereon dated November 10, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Natrona County School District No. 1's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Natrona County School District No. 1's internal control. Accordingly, we do not express an opinion on the effectiveness of Natrona County School District No. 1's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Natrona County School District No. 1's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE

INDEPENDENT AUDITOR'S REPORT

To the Honorable Superintendent and Members
of the Board of Trustees
Natrona County School District No. 1
Casper, Wyoming

Report on Compliance for Each Major Federal Program

We have audited Natrona County School District No. 1's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Natrona County School District No. 1's major federal programs for the year ended June 30, 2016. Natrona County School District No. 1's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Natrona County School District No. 1's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Natrona County School District No. 1's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Natrona County School District No. 1's compliance.

Opinion on Each Major Federal Program

In our opinion, Natrona County School District No. 1 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of Natrona County School District No. 1 is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Natrona County School District No. 1's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Natrona County School District No. 1's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

2015-001

U.S. Department of Health and Human Services, Passed through Wyoming Department of Education

Temporary Assistance for Needy Families Cluster

93.558 – Temporary Assistance for Needy Families

Criteria:

Only a financially needy family that consists of, at a minimum, a minor child living with a parent or other caretaker relative, may receive TANF assistance. Financially “needy” is defined as financially eligible according to the State’s quantified income and resource criteria to receive the benefit.

Condition:

The District’s eligibility and verification process consists of the District requesting a TANF application for each student requesting enrollment in the TANF preschool. The parents are required to provide pay stubs or an IRS Form 1040 as proof of income in order for the student to qualify because of economic need. The applications and proof of income are evaluated by the District’s Early Childhood Coordinator to determine eligibility. The Early Childhood Coordinator’s verification of eligibility is not reviewed by another individual. This resulted in an incorrect determination of eligibility for several students. Examples of incorrect determinations include (1) overtime was excluded from the definition of income without determining whether the overtime was a predictable or sporadic source of income, (2) inconsistent pay periods were used for the determination, (3) documents other than pay stubs or IRS Form1040 were used to verify income, and (4) families with income greater than the Federal income guidelines were determined to be eligible.

Status:

Condition has been corrected.
