

Elementary Field Science 2018

Casper College

Casper College, in association with the Werner Wildlife Museum, is offering a 5-day Field Science experience this summer. Students will spend the week in nature learning about plants, animals, rocks, and fossils.

Who? For current 4th graders with an interest in science and nature. This year we have 20 spots available for students across the school district.

Where? We will travel around Casper area field trip sites to learn about local plants, birds, animals, rocks, and fossils. We will visit Speas Fish Hatchery, Edness Kimball Wilkins State Park, Casper Mountain, Bates Creek, and the Alcova area.

When? June 18-22, 8:45 a.m. to 4:00 p.m. daily.

Registration forms are available at <https://sites.google.com/caspercollege.edu/summer-field-science-2018/home> and from jessiewyo@wyoming.com. The early registration deadline is May 15, 2017 with tuition of \$100/student for the week, or \$120 after May 15th. The class is open to 20 students on a first-come, first-served basis, the rest will be waitlisted. The payment deadline for the first 20, after notification, is June 1, 2018. There are a limited number of scholarships available.
